SUMMARY OF THE REGULATIONS OF THE DISCIPLINES

It should be noted that for anything that is not established here you have to refer to the regulations of the individual FIDASC specialties, which can be consulted on the website www.fidasc.it in the entry regulations for the year 2021.

Art. 21 SMOOTH BORE COMPETITION

NUMBER OF TARGETS - CALIBER - TYPE OF WEAPON - CARTRIDGE

The competition will take place in two series of 16 shots each one, totaling 32 shots.

Each series consists of four targets, each shooter will make a series of four targets on Saturday and one on Sunday, the series is composed as follows:

two 4 + 4-shot targets on a "mobile" boar silhouette target;

two targets of 4 + 4 shots on a "fixed" target.

"Mobile" Target Shots:

All shots must be fired to moving silhouette that is in window 10 mt. The target is running from right to left and from left to right with constant speed so that it is visible 2,5-2,8 s. Target will be running by shooter command. The target line must be formed by a 10m window, where is about half of the distance a 1 m wide wooden screen, plywood or similar. At "READY" the shooter assumes the position as shown in Figure n. 1 to the regulations of the FIDASC Discipline, under the command - "READY GO", he takes up the weapon and must take a shot at each appearance of the target. At the end of the first 2-shot run, the shooting is continued until the end of series (4 shots) Maximum shooting time for serie is 2 minutes. Shots not fired or finished on guards and bulkheads are considered void and cannot be repeated. The match official, present on the shots line, must absolutely enforce the time necessary to carry out the reloading of the shots provided for each series, as well as guarantee maximum safety, avoiding the shooter making any movement that could affect the safeguarding of own and others' safety. In full compliance with the above, the shooter, if desired, can also swing his weapon between one shot and the next.

By entering to shooting position and from that, shooter should carry the weapon in the way it is visible that it's not loaded and is not allowed to direct barrel(s) to horizontal position (except in shooting window)

Shots at the "fixed" target:

The competition takes place on the same parameters as the moving target shots, with the difference that all shots are fired on a fixed target. The so-called "Olympic" posture is also allowed. The use of rigid jackets (TSN model) is prohibited.

It is allowed to swing the rifle at each shot and view the pyro shots on the targets with their own optical systems (e.g. binoculars, monoculars), always in compliance with the safety rules dictated by the match official and respecting the time set for execution of the test. At the end of the time, at the command "ALT", the competitor immediately suspends the shot by unloading the weapon. Any shots fired after the ALT involve the cancellation of as many valid shots starting from those of greater value.

Arms and Caliber:

In all competitions, the use of smooth-bore, non-radius weapons is allowed. Juxtaposed, overlapping or semi-automatic 12 or 20 gauge, loaded with cartridges with a maximum weight of gr. 28 with a tolerance of 2%, (28.56 g) excluding the "BORRAGE" if separated. The use of a shotgun is prohibited.

It is absolutely forbidden to change weapons, the four silhouettes must be carried out with a single shotgun. The only exception is if the weapon in use ceases to function and for reasons ascertained by the Match Officials Coordinator. Shooters must present themselves on the firing line with an extra cartridge, which at the discretion and sample can be collected by the match official present on the firing line for the necessary checks.

The shooter is solely responsible for assembling his own ammunition, both in terms of regulations and in terms of safety, relieving the entire organization from any non-compliance, as well as damage caused to himself, to others or to property. "Magnum" or "semi magnum" ammunition is prohibited. Weapons are allowed metal (rear sight and front sight). The rear sight must have an internal opening angle of no more than 180 degrees. Modifications to stock and fore-end (barrel cover) are also allowed, for example: adjustable stock, anatomic, etc. Any other precaution deemed inappropriate by the match official and / or optical device is prohibited. The Match Official present on the shots line ensures strict compliance with the obligation to use headphones or other hearing protection systems and the use of protective goggles, regularly positioned. The shooter will sign their silhouettes at the time of scoring.
