- **€ 500.00 reimbursement to the winner of the "Complete"** (the winner is identified by adding up the scores obtained in the three specialty events).

The awarded shooters shall collect the prizes, if they do not, the prizes will be withdrawn by FIDASC and will no more be handed to the interested shooter.

The registration fee is € 25.00 per specialty event (Ladies and Juniors excluded).

## DEVELOPMENT OF THE COMPETITION

The competition will take place in two days:

- a) 1st day: 50 m. running boar and 200m fixed chamois;
- b) 2nd day: 100 m. 4 fixed targets, i.e. Deer, Sitting fox, Chamois and Boar;

Each shooter will perform two rounds per specialty;

The shooter shall present him/herself at the firing line with headphones or similar hearing protection devices and protection eyeglasses, with the rifle in perfect functioning conditions and suitable ammunitions. All shooters are strictly forbidden to bring with them more cartridges than those strictly needed to end the competition.

When called, the competitor shall present at the firing line with his/her rifle in its case, when the shooter doesn't shoot, the rifle must always remain open with the bolt in the backward position (semi-automatic rifle);

The Competition Judge will call the shooters on the firing line. After the 3<sup>rd</sup> call, the absent shooter will be disqualified.

### **Specialty event: 50 m running boar:**

The competition is performed in two rounds of four shots each; for each round 2 shots are fired to the target from left to right and 2 shots, from right to left. The shooting sequence is decided by the shooter.

Once at the stand, the shooter, upon command of the Competition Judge who must be there, proceeds to load the rifle with one allowed cartridge;

The running boar will be shot from a distance of 45 to 50 meters, from left to right and from right to left alternatively in a shooting window of 10 meters.

The speed will be regulated to make it possible to see the target for about 2.5 seconds both from left to right and from right to left.

The shooter waiting for the target may shoulder the rifle after calling the target without waiting for it to show.

All shots will be fired from the respective stands.

**Specialty event: Four 100 m targets:**

The competition takes place in two rounds of 16 shots each. Each round includes:

n. 4 shots on the DEER: the shooter will stand with the rifle resting on a pole set aside the stand, having a diameter of 8/15 cm , and the two ends fixed (ground/ceiling);

n. 4 shots at the SITTING FOX: the shooter will lie down in the prone position, his arms will support the rifle only with the elbows;

n. 4 shots at the CHAMOIS: the shooter may stand with the rifle resting on an alpenstok having a diameter of 25/30 mm and 2 m high, fixed to the ground;

n. 4 shots at the BOAR: the shooter will stand with no support at all.

All shots will be fired from the shooters' respective stands from a distance of 100 meters.

The academic shot is allowed.

Depending on the installations, the first trial will be performed on the deer, the second on the sitting fox, the third on the chamois and the fourth on the boar, and so on for all the participants who will keep rotating by occupying the different stands.

In full respect of the target sequence, when it is possible, it is allowed to place them not to have the same target for all shooters

**Specialty event: 200 m chamois:**

The competition takes place in two rounds of four shots each. Each round must be ended in 8 minutes maximum.

The chamois will be shot from 200 meters with the support provided by the organization.

All shots will be performed from each one's stand.

**TRAININGS**

According to the Event calendar, shooters may train in the days before the competition with no shooting limits at training targets.

**TARGETS**

The used targets are those mentioned in the attachment a) of this regulation; for the 100 m shooting, 70x100 targets will be used; for the 200 m shooting 50x70 targets will be used; for the running boar shooting a 70x50 target will be used.

**WEAPONS, SIGHTINGS AND AMMUNITIONS**

Hunting rifles figuring in the manufacturers' catalogues are allowed.

Weapons shall have a fixed, non-adjustable stock (example: stock length and cheek support height) and the forestock shall not be higher than the original trigger guard. Stocks may be replaced provided the above conditions are observed. "Thumbhole" stocks are allowed. Moreover, both "Bedding" and customized trigger sensitivity as well as the stecker use is allowed .

It is absolutely forbidden the use of any kind of tripod or other support: No prototype is allowed. Mouth brakes are allowed as well as the use of one-single shot weapons.
